

**Serving India with quality  
serving you with honesty**

## ABOUT US

We are in the business of providing high quality, piping solutions to the people with honesty and sincerity. Our belief has always been that a lasting relationship is the key to growth, both for us and our stakeholders. We are a company that works towards serving our partners consistently and reliably to ensure that we grow together in this new-age India!

A brand is only as strong as its team, hence we are focused in bringing the most passionate people and develop their skills through effective training programs. Equipped with a highly skilled team and a workplace that inspires perfection, we serve our customers with quality they can depend on.

## SPECTRA STORY

We began our journey in the piping industry with a single idea. To bridge the gap in the market and meet the demands of every consumer. With this belief, we always ensure to support our partners and serve our customers with products that equip them with the power of choice.

## THE SPECTRA WAY

Ensuring high standards with 5 level testing and quality control

Inspiring trust through 100% complete automation

Providing a combination of affordability and reliability

# GROWING WITH YOU

## OUR PHILOSOPHY

Over the years, we have come to understand that growth can only be enhanced through the strengthening of our relationships. In the journey towards a future filled with greater possibilities, we measure our achievements through the success of our partners and strive for the highest standards of quality both in character and service. This is also reflected in our vision and mission:

### VISION

Spectra Pipes is driven by the vision of continuing on the path towards success with its partners. Delivering on the promise of perfection in both products and services, We aim to become the preferred brand of piping solutions.

### MISSION

To consistently design, develop, and distribute high-quality piping solutions at affordable prices, is Spectra Pipes' mission.

# OUR PRODUCTS

## PVC Agricultural Pipes & Fittings

*As per IS 4985 & IS 7834*

## SWR Drainage Systems

*As per IS 13592 & IS 14735*

## CPVC Plumbing Systems

*As per IS 15778 & As per ASTM D 2846*

## uPVC Plumbing Systems

*As per ASTM D: 1785 & ASTM D 2467*

## PVC Underground Drainage Systems

*As per IS 15328*

## Drip Irrigation Systems

*As per IS 13488 & IS 12786*

## Garden Hoses

*As per Company Standard*

## Water Storage Tanks

*As per Company Standards - 2 layer & 3 layer*

# Lifeline to your farmland

Spectra's PVC Agricultural Pipes and Fittings offer a wide range of sizes and pressure classes to provide the ideal solution for water supply. With the various advantages over metal piping systems, they remain as the preferred choice of pipes for applications like agriculture, irrigation, water supply, etc.

## PVC AGRICULTURAL PIPES AND FITTINGS

### FEATURES & BENEFITS

Smooth Bore Ensures  
Higher Flow

Excellent Chemical &  
Corrosion Resistance

Long Life &  
Maintenance Free

Light Weight &  
Easy to Handle

PRODUCT RANGE		STANDARDS	
Pipes	20mm to 315mm	Pipes	IS 4985
Fittings	20mm to 315mm	Fittings	IS 7834

# Designed for dependable drainage

Spectra's SWR drainage systems are built for quick and effective removal of soil, waste and rainwater without leakage. It's highly resilient and durable feature gives a long service life. They are available in solvent type and ring type jointing system that is widely used in residential and commercial settings.

## SWR DRAINAGE SYSTEMS

Long Life & Maintenance Free

Excellent Chemical & Corrosion Resistance

Smooth Bore Ensures Higher Flow

Cost Effective

PRODUCT RANGE		STANDARDS	
Pipes	75mm to 160mm	Pipes	IS 13592
Fittings	75mm to 110mm	Fittings	IS 14735

# Crafted for a heated flow

Spectra CPVC plumbing systems are manufactured with the best raw materials and strict quality control in production, which gives these products very high consistency, making them ideal for both hot and cold water distribution.

CPVC  
PLUMBING SYSTEMS

## FEATURES & BENEFITS

- 

Withstands Temperature  
of up to 93° Celcius
- 

Low Thermal  
Conductivity
- 

Strong & Durable
- 

UV Resistant

PRODUCT RANGE		STANDARDS	
Pipes	3/4" to 2"	Pipes	IS 15778
Fittings	3/4" to 2"	Fittings	ASTM D 2846

# An all-rounder in varied applications

Spectra's uPVC plumbing system is perfectly suited for applications that involve the transportation and distribution of water at high pressure, making it the most durable and cost-effective solution for a wide variety of industrial, commercial and residential settings.

UPVC  
PLUMBING SYSTEMS

FEATURES & BENEFITS

Lead Free - Safe for Potable Water Distribution

Strong and Durable

UV Resistant

Excellent Chemical & Corrosion Resistance

PRODUCT RANGE		STANDARDS	
Pipes	1/2" to 2"	Pipes	ASTM D: 1785
Fittings	1/2" to 2"	Fittings	ASTM D 2467

# For a cleaner neighbourhood

Spectra's Underground Drainage pipes are designed to carry soil and waste from buildings to roadside sewers or drains and to treatment plants or disposal points. They are most suited for rainwater collection and disposal, as they are 100% watertight preventing ingress and seepage of water.

## PVC UNDERGROUND DRAINAGE SYSTEMS

FEATURES & BENEFITS

Designed for Underground Installations

Strong & Durable

Light Weight & Easy to Handle

Leak Proof Joints

PRODUCT RANGE		STANDARDS	
Pipes	63mm to 315mm	Pipes	IS 15328

# Reaching down to every root

Spectra's Drip Irrigation Lateral Pipes are manufactured from virgin polyethylene using advanced automated machinery. They utilize the concept of targeted application of water, fertilizers and chemicals directly to the plant roots to improve yield and quality.

## DRIP IRRIGATION SYSTEM

Black Colour Laterals for UV Stabilization and No Environmental Effects

Manufactured Using State-of-the-Art Extrusion Technology

Durable Laterals with Minimum Dimensional Tolerances

Minimized Frictional Losses

PRODUCT RANGE	
Inline Drip Irrigation Laterals	12 mm to 16 mm
Online Drip Irrigation Laterals	12 mm to 16 mm

STANDARDS	
Inline Drip Irrigation Laterals	IS 13488
Online Drip Irrigation Laterals	IS 12786

# Bringing blossoms to your garden

Spectra's Garden Hoses are made from the highest quality PVC compound ensuring exceptional clarity and durability. With extra flexibility, these hoses facilitate bending and pulling making it as the ideal solution for gardening and other everyday application.

## GARDEN HOSE

### FEATURES & BENEFITS

- 

Light Weight & Easy to Handle
- 

Excellent Chemical & Corrosion Resistance
- 

Easy to Clean Surface
- 

Very Flexible and Durable

PRODUCT RANGE	STANDARDS
1/2" to 1"	As per company standard

**COLORS**  
ORANGE / YELLOW / GREEN / BLUE / IVORY

# A reservoir to your daily needs

Spectra's Water Storage Tanks are manufactured with virgin raw materials that ensure the tanks have a uniform wall thickness and a long service life. It offers a variety of UV stabilized colour options suitable for domestic as well as commercial applications for water storage.

## WATER STORAGE TANKS

### FEATURES & BENEFITS

Unique  
Threaded Lid

Made from Virgin Food  
Grade Material

Resistant to Fungus and  
Bacterial Growth

Impact &  
Crack Resistant

### PRODUCT RANGE

500 ltrs to 2000 ltrs

### STANDARDS

2 layer & 3 layer

### COLORS

WHITE / YELLOW / BLUE / BLACK

## A word from the Managing Director

“

More than just a brand of piping solutions, Spectra is the reflection of an idea. The idea that together we can go further and achieve more than we ever can alone.

Creating a space of sincerity and commitment, we support our dealers and customers with reliable services that bridge the gap in the market.

Ensuring that our efforts are well-directed and consistent, we extend our hand to build relationships that go beyond business.

”
